If notice is given pursuant to the above, the Placing Agreement shall terminate and be of no further effect and neither party shall be under any liability to the other party in respect of the Placing Agreement save for any antecedent breach under the Placing Agreement prior to such termination.

REASONS FOR AND BENEFITS OF THE PLACING AND USE OF PROCEEDS

The Company is an investment holding company. The Group is principally engaged in the provision of electrical engineering services in Singapore and the construction, operation and sale of solar power station projects in the People's Republic of China.

Assuming all the Placing Shares are fully placed, the gross proceeds from the Placing will be HK\$40,432,000. The net proceeds, after deduction of all relevant expenses (including but not limited to placing commission, legal expenses and disbursements) incidental to the Placing of approximately HK\$750,000, are estimated to be approximately HK\$39,682,000, representing a net issue price of approximately HK\$0.261 per Placing Share. The Company intends to apply the net proceeds from the Placing (i) as to HK\$20,000,000 to finance the acquisition of the Properties; and (ii) as to approximately HK\$19,682,000 as general working capital of the Group.

The Directors consider that the Placing represents an opportunity to raise additional funding for the business operations of the Group and will strengthen the Group's financial position, and enlarge shareholders' base of the Company which may in turn enhance the liquidity of the Shares, and provide working capital to the Group to meet any financial obligations of the Group without any interest burden, within a relatively shorter time frame and at lower costs when compared with other means of fund raising.

The Board has considered other alternative fund raising methods such as debt financing, rights issue or open offer. The Board considered that debt financing may incur interest burden on the Group and may be subject to lengthy due diligence and negotiations with the banks with reference to the Group's financial position and the then financial market condition and it may be relatively uncertain and time-consuming. On the other hand, rights issue or open offer may also involve relatively substantial time and cost to complete as compared to the equity financing through issue of new Shares under General Mandate.

The Directors consider that the Placing Agreement is entered into upon normal commercial terms following arm's length negotiations between the Company and the Placing Agent and the terms of the Placing Agreement (including the Placing Price and the placing commission) are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.
