⁴ Effective for annual periods beginning on or after a date to be determined

The Interim Financial Statements have been reviewed by the audit committee of the Company (the “Audit Committee”).

4. SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) provision of electrical engineering services (“engineering services”);
- (b) design, supply and installation of solar photovoltaic parts and equipment (“solar power business”); and
- (c) trading of consumer products and accessories (“trading business”).

Management considers the business from product type perspective. Management monitors the results of engineering services, solar power business and trading business separately for the purpose of making decisions about resource allocation and performance assessment. Management was of the view that these three segments were mutually exclusive and distinguished from each other.

Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax from continuing operations. The adjusted profit/loss before tax from continuing operations is measured consistently with the Group’s profit before tax from continuing operations except that unallocated gains as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

Impairment assessment

Goodwill acquired through business combinations is allocated to solar power cash-generating unit (“CGU”) for impairment testing. The recoverable amount of the CGU to which the goodwill was allocated has been determined based on a value in use calculation using cash flow projections based on financial budgets covering a five-year period approved by senior management. The Group has appointed an independent professional valuer to perform a value-in-use calculation for impairment assessment on the CGU. Key input in the valuation is as follows:

The pre-tax discount rate applied to the cash flow projections is 24.44% (30 June 2017: 22.96%). The projected revenue was based on the management’s judgement with reference to a long term agreement entered into in 2017 for the provision and installation of photovoltaic parts and equipment. The cash flows beyond the five year period are extrapolated assuming a 2% growth rate (30 June 2017: 2%).

As the recoverable amount of the CGU attributable to the owners of the Company as measured on value in use basis as at 31 December 2017 is higher than the carrying amount of S\$16,446,060, it is therefore considered that there is no impairment loss on the net carrying amount of goodwill as at 31 December 2017.

During the reporting periods, the Group has hired certain foreign workers and has arranged for an insurance company to provide insurance guarantees with the Singapore Government. The Directors believe that no foreign workers of the Group have breached the relevant regulations during the reporting periods. Accordingly, the Group has not provided for any provision in relation to such law.

21. EVENT AFTER THE REPORTING PERIOD

On 12 January 2018, a deed of termination was entered into between the Group and the vendor of the properties for the termination of the provisional agreement for the acquisition of the properties in Taiwan. The deposit in the amount of HK\$10,000,000 (equivalent to S\$1,768,878) paid for the acquisition of the properties had been fully refunded to the Group. Details of this transaction were set out in the Company's announcements dated 16 June 2017, 27 September 2017 and 12 January 2018.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the period under review, Kingbo Strike Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) have undergone various changes in its mode of business:

Solar Power Business

Further to the completion of disposal of the entire registered capital of 開合新能源(鎮江)有限公司 (Kaihe New Energy (Zhenjiang) Company Limited*) at a total consideration of RMB30,000,000 on 25 May 2017, the solar power business has transformed into the design, supply and installation of solar photovoltaic parts and equipment. The Group has recognised a revenue of approximately RMB34.2 million (equivalent to approximately S\$7.0 million) from the solar power business in these six months ended 31 December 2017.

The Group will continuously develop the solar power business and strive to maximise the return to the shareholders of the Company.

Electrical Engineering Services

For the six months ended 31 December 2017, the electrical engineering services in Singapore recorded a revenue of approximately S\$9.6 million which represents a decrease of approximately 14.5% over that of approximately S\$11.2 million for the six months ended 31 December 2016. This is mainly attributable to the fierce competition in public housing development projects in Singapore.

During the six months ended 31 December 2017, the Group completed 2 projects (six months ended 31 December 2016: nil), all (six months ended 31 December 2016: nil) of which are public residential projects. The Group did not secure any new projects in these six months ended 31 December 2017 (six months ended 31 December 2016: nil). As at 31 December 2017, the value of outstanding contracts to be completed was approximately S\$6.0 million (30 June 2017: approximately S\$15.6 million). All the 4 (30 June 2017: 6) outstanding contracts as at 31 December 2017 are public residential projects.

Consumer Products and Accessories

In line with the corporate strategy for further fostering the revenue and diversifying the revenue base, the Group commenced trading of consumer products and accessories since November 2017. The Group recorded a revenue of approximately HK\$14.8 million (equivalent to approximately S\$2.6 million) in these six months ended 31 December 2017.

FINANCIAL REVIEW

Revenue

For the six months ended 31 December 2017, majority of the Group's revenue was derived from solar power business in the People's Republic of China (the "PRC") and electrical engineering services in Singapore.

Revenue contributed from solar power business in the PRC and electrical engineering services in Singapore comprised approximately 36.5% (S\$7.0 million) and 50.1% (S\$9.6 million) of the total revenue of the Group, respectively.

Consumer products and accessories segment, which commenced trading during the period under review, also contributed 13.4% (S\$2.6 million) of the total revenue.

Operating Results

During the period under review, gross profit of the Group decreased by 11.0% to approximately S\$1.6 million (six months ended 31 December 2016: S\$1.8 million) as compared to the same period of last financial year. Gross profit margin for the six months ended 31 December 2017 decreased to 8.2% from that of 15.7% for the six months ended 31 December 2016. This significant reduction is mainly attributable to the lower gross profit margin generated from the housing projects of the electrical engineering services in Singapore. Although the gross profit margins for these housing projects are variable on their scale, complexity, specifications, timing and capacity, keen competition in the market is a crucial factor for the reduction in gross profit margin. Loss attributable to owners of the Company is approximately S\$2.5 million (six months ended 31 December 2016: S\$86,000) and basic loss per share attributable to ordinary equity holders of the parent is S0.25 cent (six months ended 31 December 2016: S0.01 cent). The loss is mainly attributable to (i) fair value loss on held for trading investments of approximately S\$2.6 million; and (ii) recognition of fair value gain amounting to approximately S\$2.1 million on profit guarantee receivable for the six months ended 31 December 2016, which is non-recurring in the six months ended 31 December 2017.

Other Gains and Losses

Other gains and losses has experienced a sharp increase in aggregate net losses of approximately S\$1.2 million for the six months ended 31 December 2016 to that of approximately S\$2.6 million for the six months ended 31 December 2017. This is primarily attributable to the fair value gain on profit guarantee receivable of approximately S\$2.1 million taken place in the six months ended 31 December 2016, which is non-recurring in the six months ended 31 December 2017.

Administrative Expenses

Administrative expenses for the six months ended 31 December 2017 increased by 57.5% to approximately S\$2.2 million (2016: S\$1.4 million) which was attributable to the increase in salaries and legal and professional fees.

Share of Results of Joint Ventures

The Group's share of results of joint ventures increased by 51.5% to approximately S\$1.2 million (2016: S\$820,000) during the period under review. The increase in profits contributed from joint ventures is mainly attributable to more work done to newly secured projects during the six months ended 31 December 2017.

Taxation

There was a net income tax expense of approximately S\$182,000 for the six months ended 31 December 2017 compared with a net income tax credit of approximately S\$145,000 for the same period last year as there was a reversal of tax expense of approximately S\$320,000 in the six months ended 31 December 2016 due to the reduction in the share price of the listed securities held for trading.

Liquidity, Financial Resources and Gearing

As at 31 December 2017, net current assets of the Group was approximately S\$44.2 million (30 June 2017: S\$40.5 million). Besides, the Group maintained cash and cash equivalents of approximately S\$17.7 million (30 June 2017: S\$17.2 million), of which approximately 17.3% was in Hong Kong dollars, 75.1% was in Singapore dollars and 7.6% was in other currencies (30 June 2017: 22.6% was in Hong Kong dollars and 77.4% was in Singapore dollars).

The Group's gearing ratio was 1.6% (30 June 2017: 7.1%), which was calculated on the basis of net debt over equity attributable to owners of the Company. Net debt is calculated as trade and other payables less cash and cash equivalents. The reduction in gearing ratio is mainly due to the decrease in trade and other payables

On 20 June 2017, the Company entered into a placing agreement (the "Placing Agreement") with Pinestone Securities Limited, pursuant to which Pinestone Securities Limited has conditionally agreed, as agent of the Company, to procure on a best effort basis, not less than six placees to subscribe for up to 152,000,000 placing shares at the placing price of HK\$0.266 per placing share (the "Placing"). The Placing was completed on 6 July 2017 and 152,000,000 placing shares with an aggregate nominal value of HK\$1,520,000 were allotted and issued by the Company to not less than six placees who were professional, institutional or other investors, who and whose ultimate beneficial owners were third parties independent of and not connected with the Company and its connected persons.

The placing price of HK\$0.266 per placing share represents: (i) a discount of approximately 8.28% to the closing price of HK\$0.29 per share as quoted on the Stock Exchange of Hong Kong Limited on 20 June 2017, being the date of the Placing Agreement; and (ii) a discount of approximately 9.83% to the average closing price of HK\$0.295 per share as quoted on the Stock Exchange of Hong Kong Limited for the last five consecutive trading days immediately prior to the date of the Placing Agreement. The net placing price of the Placing was approximately HK\$0.261 per placing share.

The Placing was conducted by the Company to raise additional funding for the business operations of the Group and strengthen the financial position of the Group, and enlarge the shareholders' base, which may in turn enhance the liquidity of the shares of the Company. The net proceeds from the Placing amounted to approximately HK\$39.7 million was previously intended to be applied as to HK\$20 million to finance the acquisition of properties situated in Taiwan and the remaining balance as general working capital. As disclosed in the announcement of the Company dated 12 January 2018, the acquisition of properties has lapsed and all the net proceeds from the Placing would be applied as general working capital of the Group. The Company has utilised all the net proceeds as to (i) approximately 7.4% in human resources; (ii) approximately 2.9% in office utilities; (iii) approximately 16.0% in other general expenses; and (iv) approximately 73.7% for working capital in respect of trading in consumer products and accessories, in the six months ended 31 December 2017.

Capital Structure, Exposure to Fluctuations in Exchange Rates and Related Hedges

The Group primarily financed its operations with internally generated cash flows, and by its internal resources and shareholder's equity. Cash was generally placed in short-term deposits. The liquidity and financing requirements of the Group were reviewed regularly.

The Group's business mainly operates in Singapore, PRC and Hong Kong. Accordingly, its revenue and transactions arising from its operations were generally settled in Singapore dollars, Renminbi and United States dollars and Hong Kong dollars. As a result, fluctuations in the value of Hong Kong dollars/United States dollars and Renminbi against Singapore dollars could adversely affect the cash and cash equivalent which is reported in Singapore dollars. During the six months ended 31 December 2017, the Group did not experience in any material difficulties or impacts on its operations or liquidity as a result of currency exchange fluctuation.

The Group did not use any financial instruments for hedging purposes during the six months ended 31 December 2017 and there was no hedging instrument outstanding as at 31 December 2017. The Group will continue to monitor closely the exchange rate risk arising from its existing operations and new investments in future. The Group will further implement the necessary hedging arrangement to mitigate any significant foreign exchange risk when and if appropriate.

Charge on Assets

As at 31 December 2017 and 30 June 2017, the Group had no charges on its assets.

Capital Expenditure and Commitments

During the six months ended 31 December 2017, the Group had capital expenditure of approximately S\$65,000 (2016: S\$306,000).

As at 31 December 2017, the Group had commitments contracted for but not provided in the condensed consolidated financial statements of approximately S\$3.4 million (30 June 2017: S\$3.5 million) in respect of acquisition of properties. The commitments were subsequently released as a result of a deed of termination entered into on 12 January 2018 for the termination of the provisional agreement for the acquisition of the properties.

Significant Investments Held, Material Acquisitions and Disposals of Subsidiaries and Associated Companies

As at 31 December 2017, the Group held certain listed securities as held-for-trading investments.

The Group identified its investments based on the share price performance and future prospect of the investments. For the six months ended 31 December 2017, the Group did not receive any dividend income (six months ended 31 December 2016: Nil) from investment in listed securities and made a fair value loss of S\$2.6 million (six months ended 31 December 2016: S\$3.5 million) on held-for-trading investments, in which S\$1.0 million (six months ended 31 December 2016: nil) is realised loss. This fair value loss is mainly the combination effect of: (i) increase in share price of 31.2% of Chi Ho Development Holdings Limited (“Chi Ho”); (ii) decrease in share price of 94.9% of Li Bao Ge Group Limited (“Li Bao Ge”); and (iii) decrease in the share price of Pinestone Capital Limited (“Pinestone”) of 66.6% and (iv) decrease in share price of 36.7% of China Baoli Technologies Holdings Limited (“China Baoli”) during the six months ended 31 December 2017. All the shares of Heng Tai Consumables Group Limited were disposed of during the six months ended 31 December 2017.

Details of all the held-for-trading investments were set out in note 17 to this interim results announcement.

China Baoli is principally engaged in mobile technologies business, tourism and hospitality business, gamma ray irradiation services, and securities trading and investment. Although China Baoli recorded a loss for the financial year ended 31 March 2017 and for the six months ended 30 September 2017, they are committed to identifying and evaluating appropriate opportunities to invest in, thereby continuously improving its market competitiveness and maintaining its overall performance. Their goal is to generate stable fee based income and performance based revenue. In the long run, the Group believes that China Baoli will continue to diversify its existing business so as to achieve better growth potential and generating promising returns to the shareholders.

Pinestone is a Hong Kong-based financial services provider principally engaged in provision of securities brokerage services, securities-backed lending services as well as placing and underwriting services. The profit for the financial year ended 31 December 2016 of Pinestone is approximately HK\$27.6 million, which has increased by approximately HK\$12.2 million compared to that of the previous year. Pinestone continued to record a profit of HK\$10.6 million for the six months ended 30 June 2017. Furthermore, Pinestone has successfully transferred its shares from being listed on the Growth Enterprise Market to the Main Board of the Stock Exchange on 8 June 2017. Pinestone will continue to cultivate client relationship, strengthen the financial positions, and explore business opportunities to maximize the long-term return for the shareholders. Being optimistic in the securities industry in Hong Kong, the Company is positive towards the prospect of Pinestone.

Li Bao Ge is principally engaged in the operation of a chain of Chinese restaurants in Hong Kong and the PRC. The profit for the financial year ended 31 December 2016 of Li Bao Ge is approximately HK\$9.5 million, which has increased by approximately HK\$3.2 million compared to that of the previous year. Li Bao Ge continued to record a profit of HK\$7.8 million for the six months ended 30 June 2017. Although Li Bao Ge continuously recorded profit for the six months ended 30 June 2017, it had experience a significant fluctuation of the share price during the six months ended 31 December 2017. For prudence sake, the group had disposed a substantial part of its holding in Li Bao Ge during the period.

Chi Ho is an established main contractor for the provision of renovation and maintenance works, alteration and addition works, and fitting-out works in Hong Kong. The Group is responsible for the overall management, implementation and supervision of projects. The Group focuses on the management of projects, development of work programmes, procurement of works materials, operation of site works, co-ordination with the customers or their consultants and quality control of the works carried out by the employees and the subcontractors. The profit for the financial year ended 31 March 2017 of Chi Ho is approximately HK\$12.5 million, which has decreased by approximately HK\$2.5 million compared to that of the previous year. Chi Ho continued to record a profit of HK\$10.2 million for the six months ended 30 September 2017.

The Company holds positive views towards the prospect of the above listed companies.

Save for those disclosed above, note 17 to this interim result announcement, interests in joint ventures and interests in an associate, there were no other significant investments held, nor were there any material acquisitions or disposals of subsidiaries during the period under review.

Contingent Liabilities

Save as disclosed in note 20 to this interim results announcement, the Group had no other contingent liabilities as at 31 December 2017.

Employment and Remuneration Policy

As at 31 December 2017, the total number of employees of the Group was 161 (30 June 2017: 173). During the period under review, employees costs (including Directors' emoluments) amounted to approximately S\$2.7 million (2016: S\$2.6 million). Remuneration of the employees which included salary and discretionary bonus was based on the Group's results and individual performance. Medical and retirement benefits schemes were made available to qualified personnel.

Prospect

Although the Group has commenced its trading business in consumer products and accessories in order to broaden the revenue stream during the period under review, the fierce competition in public housing development in Singapore and the uncertainty of the solar power business in the PRC might bring challenges to the Group.

The Group will continue to leverage its resources to improve the profitability and simultaneously take prudent measures to control the operating costs.

Looking ahead, the Group will continually enhance its principal businesses and will seek for good business opportunities so as to enhance the value of the shareholders of the Company.

CORPORATE GOVERNANCE PRACTICES

The Group is committed to establish and maintain high standard of corporate governance. The Company believes that good corporate governance system provides a sustainable and solid foundation for the Company to manage business risks, enhance transparency, advance accountability and maximise shareholders' interests.

The Company has applied the principles of Corporate Governance Code (the "CG Code") as set out in Appendix 14 to the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and complied with all applicable code provisions of the CG Code throughout the six months ended 31 December 2017, save and except for the deviations from code provisions A.2.1 and A.6.7.

Code provision A.2.1

Code provision A.2.1 of the CG Code stated that the roles of chairman and managing director should be separate and should not be performed by the same individual. On 13 February 2017, Mr. Yeo Jiew Yew ("Mr. Yeo") retired and did not offer himself for re-election as an executive Director and also ceased to be the managing director (the "Managing Director") of the Group. As the Company did not appoint any person to replace Mr. Yeo as the Managing Director, this deviates from code provision A.2.1 of the CG Code.

Mr. Liu Yancheng, the chairman of the board (the "Board") of directors is responsible for the general operations of the Board and the overall strategy of the Group whereby the ex-Managing Director, Mr. Yeo, who remains as the director of Strike Singapore, continues to be responsible for the overall management, strategic planning and business development of the Group's business operations in Singapore. The roles and functions of Mr. Yeo for the Group thereby has not changed subsequent to his retirement as the Managing Director. The Board therefore considers that this structure would not impair the balance of power and authority between the directors and the management of Company.

The Board understands the importance of complying with the code provision A.2.1 of the CG Code and will continue to consider the feasibility of compliance. If compliance is determined, appropriate persons will be nominated to take up the different roles of the Chairman and the Managing Director.

Code provision A.6.7

Code provision A.6.7 of the CG Code stipulates that independent non-executive directors and other non-executive directors should attend general meetings and develop a balanced understanding of the views of shareholders. Mr. Li Jin, an independent non-executive Director of the Company, was unable to attend the annual general meeting of the Company held on 20 October 2017 due to his other business engagements.

During the six months ended 31 December 2017 and up to the date of this announcement, the following change took place in the composition of the Board:

- Mr. Yao Runxiong was appointed as the executive Director of the Company with effect from 25 October 2017.

MODEL CODE FOR SECURITIES TRANSACTIONS BY THE DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “Model Code”) as the code of practice for carrying out securities transactions by the Directors. After specific enquiry with all members of the Board, the Company confirmed that all Directors have fully complied with the relevant standards stipulated in the Model Code during the six months ended 31 December 2017.

DIRECTORS’ AND CHIEF EXECUTIVES’ INTERESTS AND SHORT POSITIONS IN THE UNDERLYING SHARES OF THE COMPANY OR ANY ASSOCIATE CORPORATION

As at 31 December 2017, the interests and short positions of each Director and chief executive of the Company in the shares, underlying shares and debentures of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the “SFO”) which were required to be (i) notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which the Directors and the chief executive have taken or deemed to have taken under such provisions of the SFO); (ii) recorded in the register kept by the Company under section 352 of the SFO; or (iii) notified to the Company and the Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers, were as follows:

Long Positions in Shares and Underlying Shares of the Company
